

# A-Line Dust Bag

## Description:

A durable, easy-to-load dust bag featuring a unique flicker chamber that assures even spread of dust over the animal. Also has convenient 2-point attachment for easy hanging, a steel spreader bar to assure proper bag position and rope protected edges for long wear.

## Benefits:

- **Rope protected edges** allow for longer wear and extra strength.
- **Steel spreader bar** allows for two point attachment and assures that bag will not turn sideways in the lane.
- **Two-point attachment** - convenient and easy to hang.
- **Weather proof loading vent** - no flaps or covers.
- **Flicker chamber** - recharges with dust as dust bag drops off hindquarters of animal passing under it. Facilitates correct dosage and proper application.
- **Choice of insecticide**, either 3% Rabon or 1% Co-Ral. Refills may be used.
- **Versatile** - can be used for either free choice or forced use applications. For free choice conditions, one bag will handle 25-50 head.

## Packaging:

1 Bag, 10 bags/case  
UPC 7-45801-33050-4
