

Udder Balm

for hands & skin

Durvet Udder Balm aids in the protection against the effects of extremes in weather – low humidity, warm and cold temperatures. Daily application of Udder Balm aids in soothing and softening chapped and irritated skin.

Soothes & Softens

Contains Aloe Vera, Lanolin & Glycerin

FOR USE ON

Human hands and other skin areas, as well as, dairy cattle udders.

PRODUCT BENEFITS

- Creamy cosmetic base
- Contains:
 - Vitamins A, D and E
 - Lanolin for maximum penetration and soothing
 - Aloe Vera Gel and Glycerin
- May help reduce incidence of chapped hands and other exposed skin areas
- Aids in frost protection, wind and other adverse weather conditions
- Pleasant scent for customer appeal

DIRECTIONS FOR USE

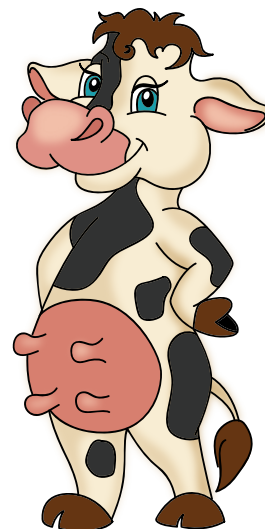

Hands and other skin areas: Wash and thoroughly dry area. Apply Udder Balm and massage onto skin.

Udders: Wash and thoroughly dry udder and each teat. Apply Udder Balm liberally and evenly to entire teat and udder area after each milking, being sure to coat teat orifice. Gently massage coated area to work Udder Balm onto skin.
