

**Durvet Udder Balm** aids in the protection against the effects of extremes in weather – low humidity, warm and cold temperatures. Daily application of Udder Balm aids in soothing and softening chapped and irritated skin.

**Ingredients:** Water, Mineral Oil, Cetearyl Alcohol, Glycol Stearate, Stearic Acid, Propylene Glycol, Glycerin, Sorbitol, Lanolin, Aloe Vera Gel, Vitamin E, Vitamins A and D, Methylparaben, Sodium Hydroxide, Propylparaben, Fragrance, FD&C Yellow #5.

**KEEP OUT OF REACH OF CHILDREN**

Udder Balm is recommended for use on hands, other skin areas, teats and udders that are exposed to frequent washing and temperature changes.

**Directions:** Hands and other skin areas: Wash and thoroughly dry area. Apply Udder Balm and massage onto skin. Udders: Wash and thoroughly dry udder and each teat. Apply Udder Balm liberally and evenly to entire teat and udder area after each milking, being sure to coat teat orifice. Gently massage coated area to work Udder Balm onto skin.

**Caution:** Before milking, thoroughly wash the entire udder and teat area to avoid contamination of milk.
