

DuraBoost

FOR SHEEP & GOAT

CONTAINS ESSENTIAL OILS

BENEFITS

Activo Technology

Microencapsulated for optimal thermal protection, containing standardized phytomolecules with antimicrobial, digestive, and antioxidant properties for targeted release in the animal's gastrointestinal tract.

Premium Prebiotic Blend

Proprietary yeast cell wall product, packed with beta glucans and mannan oligosaccharides, for superior gut health.

Balanced Digestion & Improved Nutrient Utilization

Infused with 2 Billion CFU's of probiotic cultures to enhance nutrient absorption and bolster digestive health.

Boosted Immunity

Strengthens resilience against diseases.

Support During Life's Crucial Moments

Vital for breeding, pregnancy, and weaning.

Convenient Daily Feeding

Ideal for those extended periods of stress for farm or show animals.

PACKAGING:

DuraBoost for Sheep & Goat
1 lb jar, 12 jars per case
UPC # 7-45801-00730-7

GIVE THEM A BOOST

DuraBoost for Sheep & Goat is a next generation feed additive that promotes immunity, stimulates appetite and eases the transition from breeding to pregnancy, all the way through lactation.

HELPS OVERCOME STRESS RELATED TO:

- Weather
- Transportation
- Disease pressure
- Breeding, birth, and weaning

GUARANTEED ANALYSIS PER 5GM:

2 Billion CFU's probiotic cultures (*Enterococcus faecium*, *Bacillus subtilis*, *Lactobacillus casei* and *Lactobacillus acidophilus*); 5 Billion CFU's live cell yeast (*Saccharomyces cerevisiae*); 2 grams hydrolyzed yeast.

One level scoop = 5 gm

INGREDIENTS: Hydrolyzed yeast, Glucose, Active dry yeast, Oregano oil, Clove oil, Cinnamon oil, Red pepper extract, Calcium carbonate, Ground corn cobs, Sodium aluminosilicate, Mineral oil, Dried *Enterococcus faecium* fermentation product, Dried *Bacillus subtilis* fermentation product, Dried *Lactobacillus acidophilus* fermentation product, Dried *Lactobacillus casei* fermentation product

DIRECTIONS FOR USE:

Administer directly into feed or top dress. 5 grams/head daily as a maintenance dose, 10 grams/head daily during non-routine situations such a birth, weaning, ration changes, transportation, vaccination, etc.

THE **ACTIVO** TECHNOLOGY DIFFERENCE

Activo contains standardized amounts of selected phytomolecules, with antimicrobial, digestive, and antioxidant properties. It is microencapsulated for optimal thermal protection and a targeted release in the gastrointestinal tract of the animal.

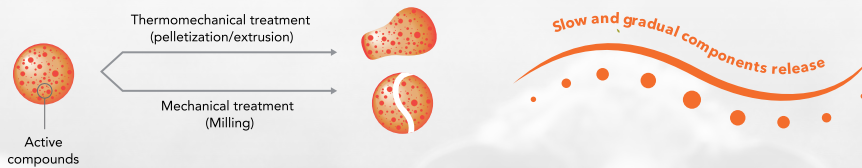

Secondary Plant Compounds

Standardized mixture of extracts with verifiable active ingredients

Micro Droplet Encapsulation

For a slow and gradual components release

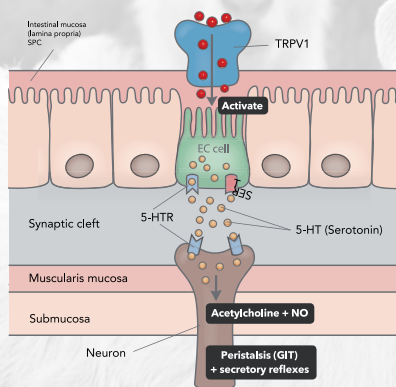

ACTIVO TRI-FOLD MODE OF ACTION

Digestive Properties

ACTIVATION OF DIGESTION

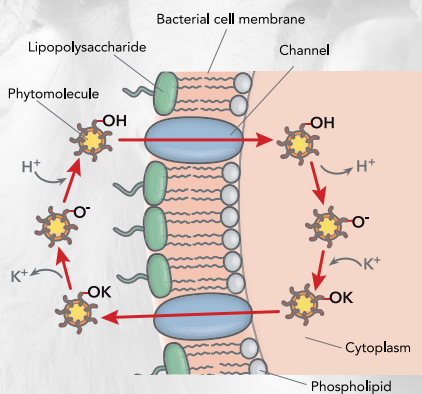

- Capsaicin / Vanillin
- Stimulation of receptor cells in the GIT
- Activation of muscles of the digestive tract and the secretion of GIT enzymes

Antimicrobial Properties

BACTERIOSTATIC EFFECT OF SPC

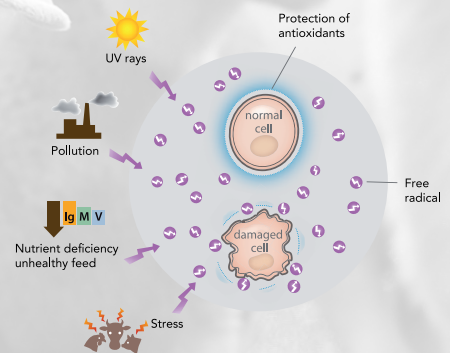

- Lipophilic interaction
- SPC disturb processes at the bacterial cell membrane
- Degrading intra-cellular effects on bacterial enzyme metabolism

Antioxidant Properties

ANTIOXIDANT EFFECT

- Polyphenols
- Free radical scavengers
- Protection of the mucosa in the GIT
