

# AluShield™

MADE IN THE USA  
OF USA AND  
IMPORTED MATERIALS

## Description:

AluShield™ is a convenient, water-resistant aerosol bandage that creates a protective barrier against external irritants in simple wounds of small and large animals. It is ideal for application to minor cuts and abrasions.

## Benefits:

- Fast and easy to use spray application
- Antibiotic free
- Provides a protective barrier while still allowing the wound to breathe
- May be applied over ointments or salves helping reduce the risk of infection
- Great for dehorning, castrating, tail docking, summer sores, and minor cuts or scrapes
- Can be easily removed with soap and water

## Directions for Use:

Shake well before use. Clean the area to be sprayed. Apply a thin layer of AluShield to the area to be protected.

## Active Ingredients:

Aluminum powder..... 4%

Inactive Ingredients: Liquified Petroleum Gas and White Mineral Oil

**DANGER: CONTENTS EXTREMELY FLAMMABLE AND UNDER PRESSURE.**

Do not puncture or incinerate container. Do not expose to heat or store at temperatures above 50°C/122°F.

## Packaging:

2.6 oz aerosol can, 12 cans/case  
UPC# 7-45801-07910-6
