

# Pre-Starter Chick Feeder

## Indications:

The Durvet Pre-Starter Feeder is designed to enhance broiler weights for chicks aged 0 to 10 days compared to conventional feed trays. Its improved flange design minimizes feed waste, ensuring efficient feeding. Each feeder, made from BPA free 100% virgin polypropylene and can hold approximately 12 lbs. of feed. It is recommended to use one feeder per 12-18 chicks, facilitating an effective transition to pan feeders.

## For Use On:

Poultry

## Benefits:

- **Durable Construction:** BPA free 100% virgin polypropylene
- **Easy Maintenance:** Simple to use and clean
- **Versatile Placement:** Perfect for pastured poultry or large backyard flocks
- **Multi-species Use:** Great for ducks, geese, and other poultry

## Packaging:

1 feeder, 6 per case
