

Magmilax Powder

Description:

A mild laxative, antacid for use in ruminant animals with simple indigestion.

Approved For Use On:

Beef cattle, dairy cattle, sheep, and goats

Benefits:

- Treats rumen acidosis by increasing the pH due to grain engorgement or soluble carbohydrate overload
- Aids in constipation in ruminants

Active Ingredients:

Each pound contains:
Magnesium Hydroxide..... 10.35 oz.
in a flavored base.

One pound contains magnesium hydroxide equivalent to 1 gallon milk of magnesia.

Directions:

Mature bovine, stir one pound of Magmilax Powder into one gallon of water and mix thoroughly. Administer as a drench or via stomach tube. For sheep, goats and calves administer one pint to one quart depending on size of animals. Frequent or continued use should be avoided.

Packaging:

25 lb. pail, 1 pail/case
